

DESCRIPTION

Support Arms provide additional assistance to users during the sitting and standing process. They must be steady and secure to provide the proper assistance. The Bemis Independence Support Arms, when combined with the Clean Shield seat, provide secure and steady support for the user. Secure Arms are just one way we are redefining your expectations.

Our Support Arms are weight bearing and have been tested to over 300 lbs. per side. The ergonomic design allows the user to place their hands where they can best support themselves when sitting and standing. The width of the arms provides a comfortable seating area for the user. Simple, but important benefits focused around the end user.

Bemis Independence's Support Arms provide the benefits needed to support an independent lifestyle.

USER BENEFITS

Weight Bearing

- Support Arms tested to over 300 pounds per side
- Support Arm strength combined with Snap 2 Secure™ allow the user to push on the arms unevenly without any wiggle or loosening
- User can depend on the arms for support

Appearance / Design

- Ergonomically positioned to properly support the user through the sitting and standing process
- Sleek design looks great in any bathroom
- Positioning and strength helps prevent the user from falling to the side

Size

- Comfortable 21" width between arms fits in virtually all bathrooms while providing extra width for the user
- Arm width allows ring to be placed in an upright position; provides easy cleaning access and standing use of the toilet
- Diameter meets ADA requirements for grab bars

Hinges

- Self sustaining hinges prevent ring from slamming
- Hinges allow easy access to seat and bowl, making both easier to clean

AVAILABILITY

- Bemis Independence's Support Arms are sold separately
 - Can be added when you first purchase your seat
 - or later on when you need extra assistance in sitting or standing
- Support Arms are easy to install

MATERIAL

- Base material for the arms is heavy gauge aluminum which provides strong support for the user
- Powder coating protects and prevents corrosion and blemishes to the surface
- Handles are polypropylene... durable and easy to clean
